01

Steel Fabrication

We are the leading Steel Fabrication Company in Gujarat. We have been involved in Metal, Stainless Steel Fabrication for past 10 years. Our team has experienced Engineers, Fabricators, Fitters, Welders, Sand Blasters, Painters and Skilled workers who provide quality work within delivery time.

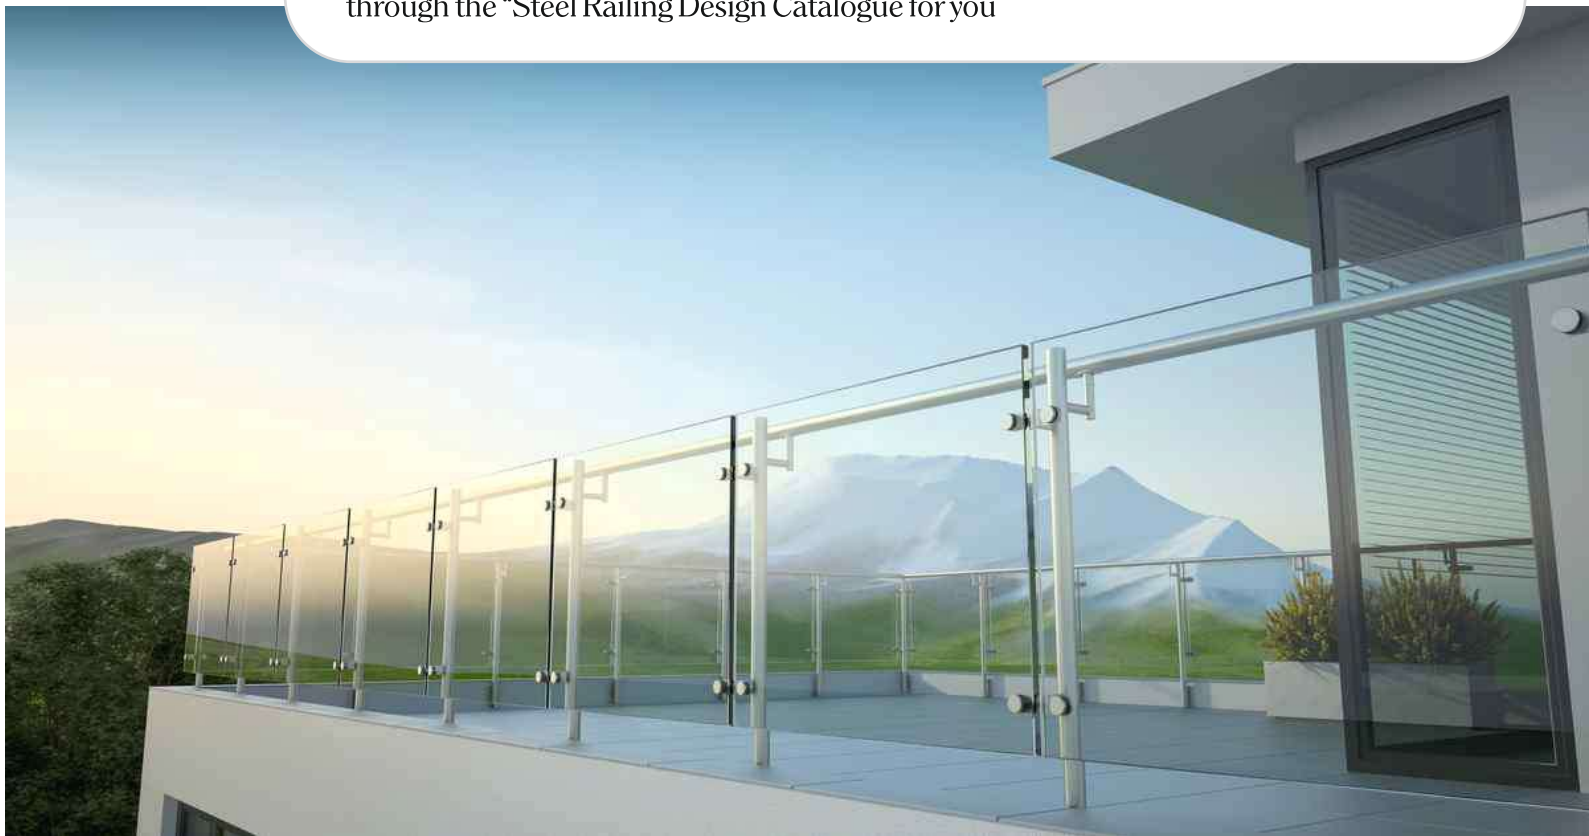

We are well known for our quality and competitive cost and perform repetitive projects with reputed Private and Government Bodies. This Includes small to large Projects related to Power, Cement and Aligned Industries.

02

STAINLESS STEEL RAILING SYSTEM

You will see the steel railing design everywhere - your home, kitchen, balcony, staircases, and roof. Image the world without “often-taken-for-granted” railings? We will see people and things falling down from everywhere - from the rooftop, staircases, balconies. Out of different materials used for railing design, steel railing design is the most popular because of its sturdiness and structural versatility and beauty.

Before we jump on to the “Advantages of Steel Railing Design for Home,” let’s take you through the “Steel Railing Design Catalogue for you

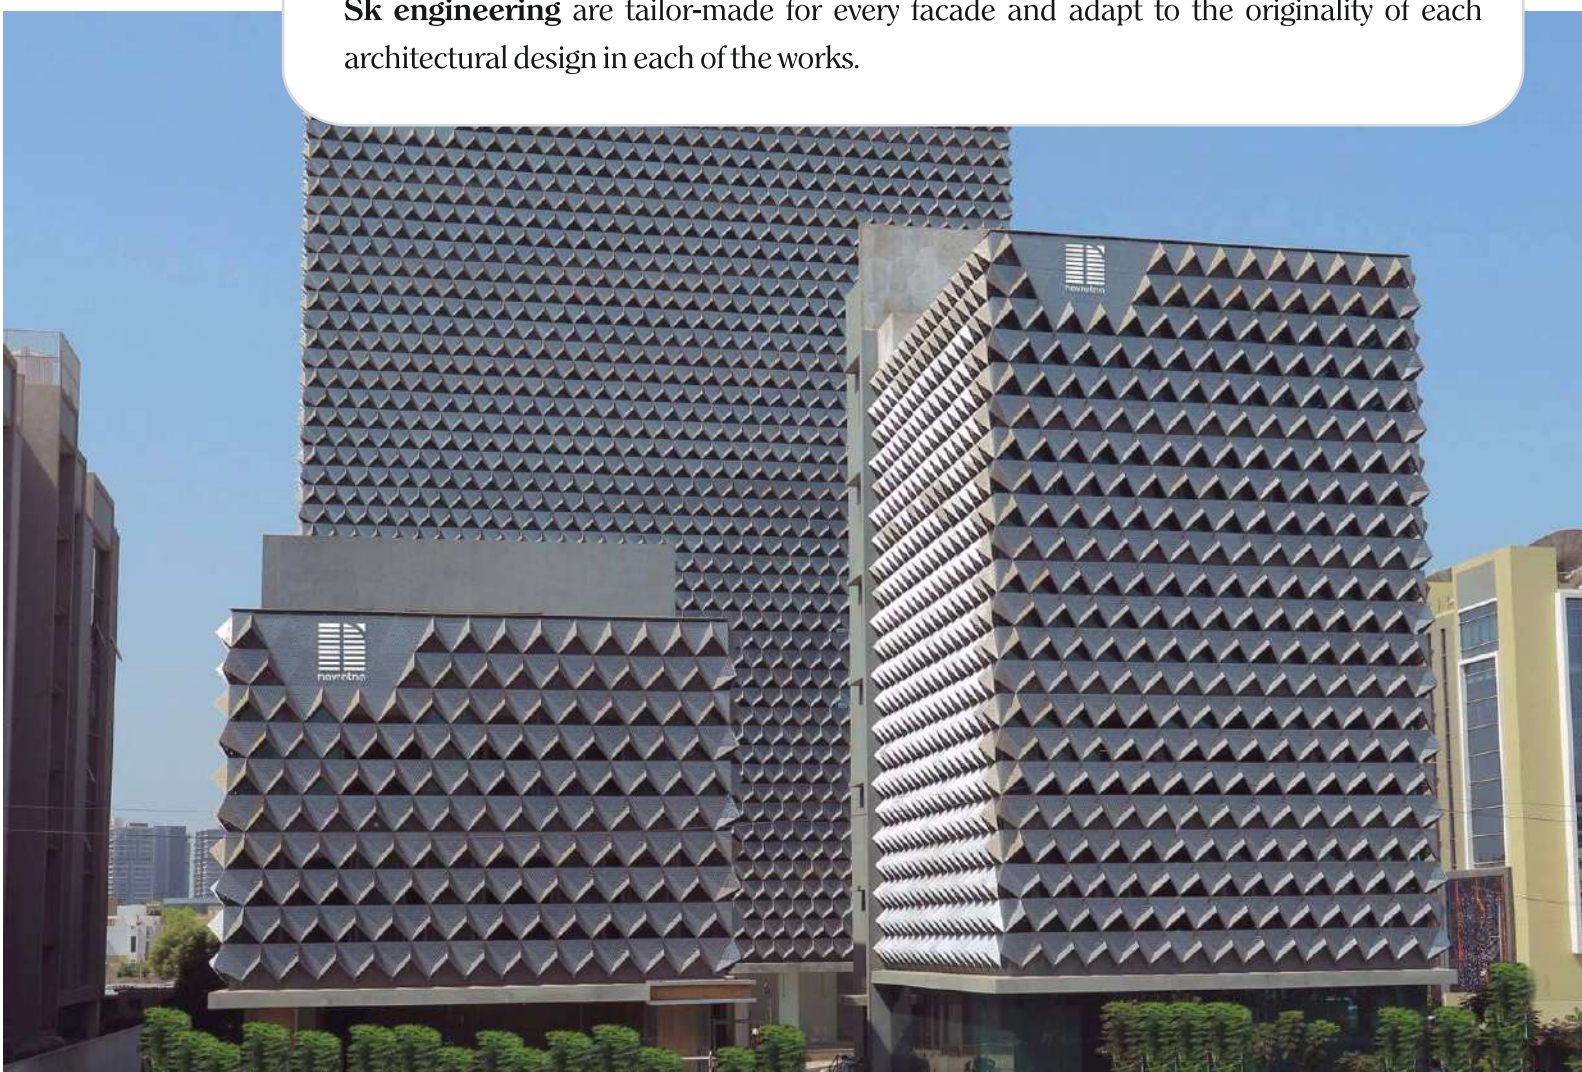

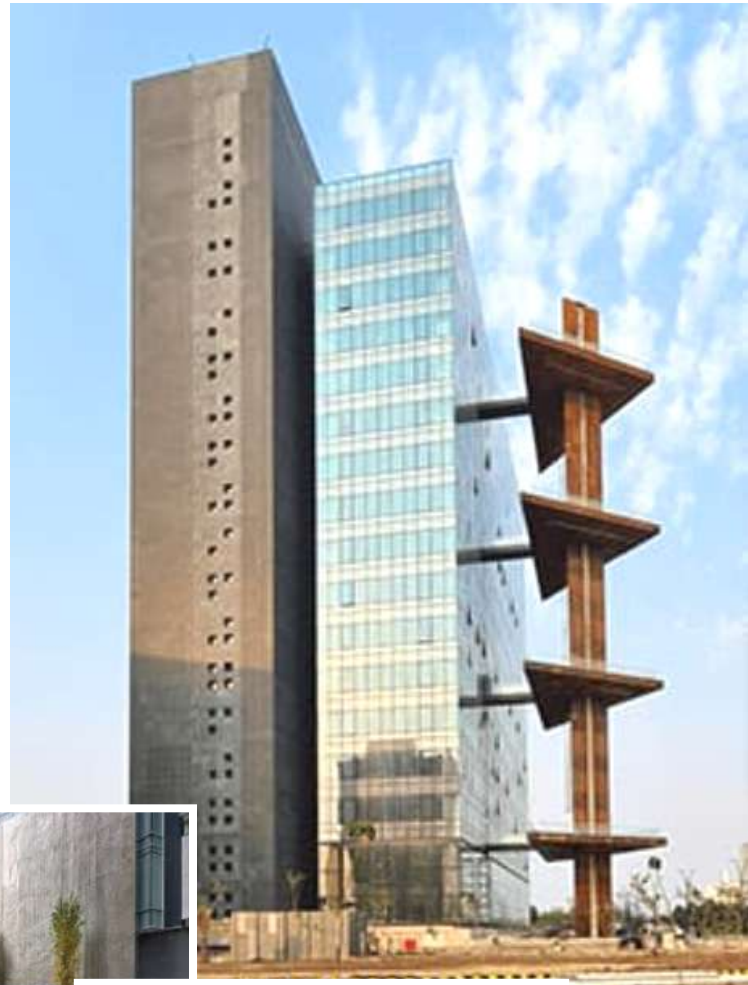

03

FASADE

Sk Engineering facade take the shape of square or rectangular curved elements, which are attached by screws to the supporting grid. They are produced as a variation of the interlocking latch system without visible joints, or with some joints kept visible to convey a more technical appearance.

Sk engineering are tailor-made for every facade and adapt to the originality of each architectural design in each of the works.

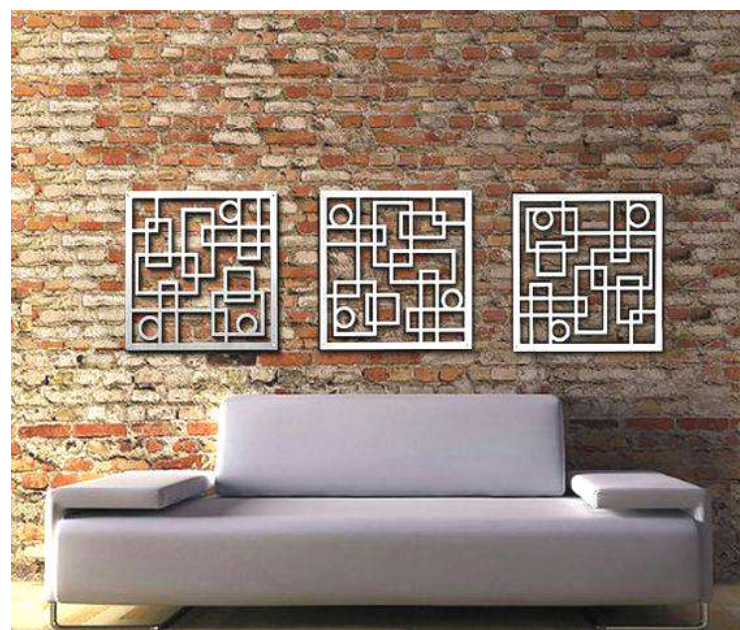

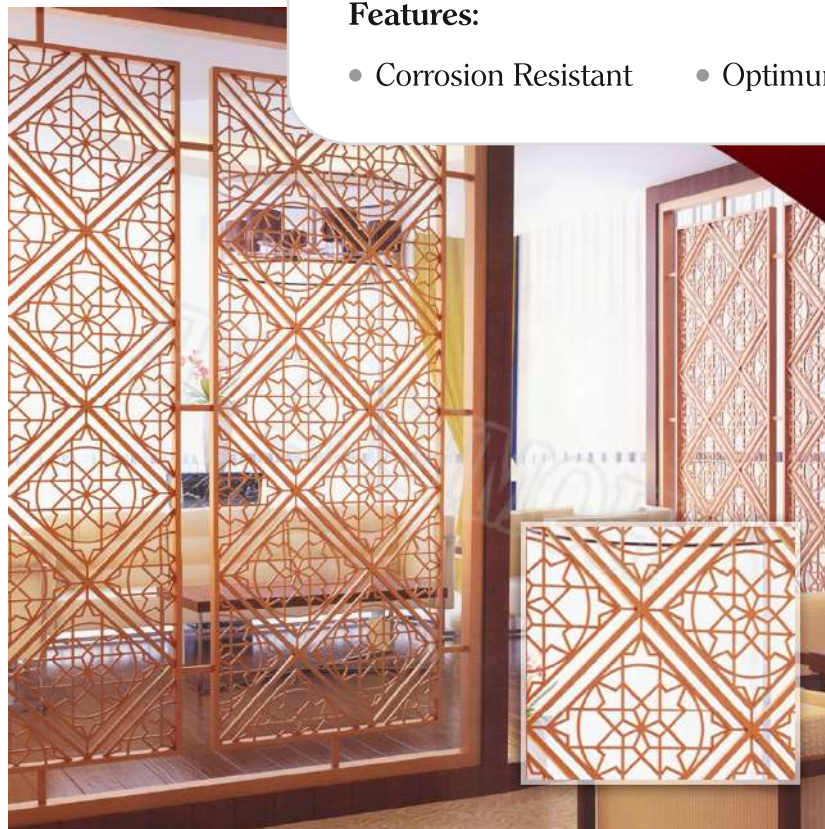

04

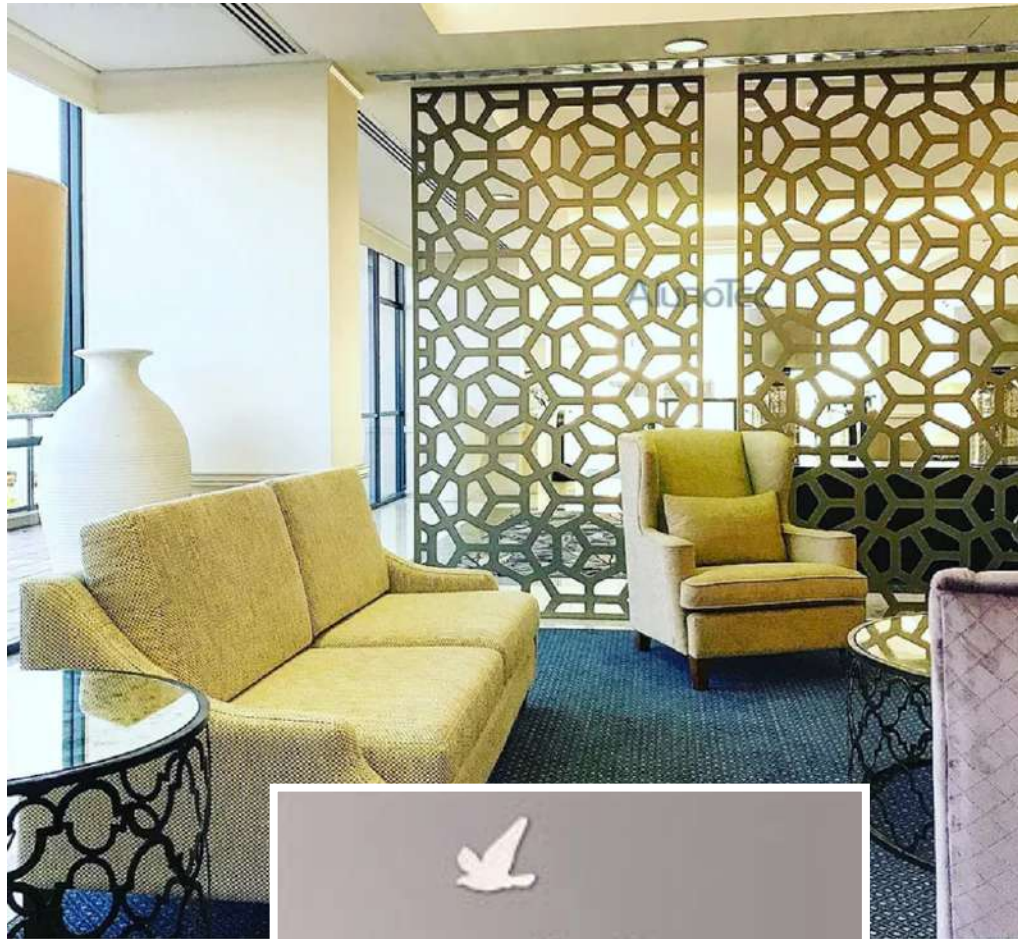

MURALS & SCULPTURE

Our company is very well known as the manufacturers and suppliers of Monumental Sculptures & MURALS . The sculptures offered by us are highly appreciated for their attributes such as beautiful crafting, fine finish and smooth edges.
